OBJECTIVE JOB

I am a Management Information Systems student with a strong ability to communicate effectively and analyze data, leveraging proven technical skills. I possess proficiency in graphic design and UI/UX design, complemented by strong analytical skills. As a board member of the Innovations Department at the University of Tabuk, I have gained valuable experience in managing projects and fostering creativity. I'm keen to pursue a career in the technology sector, specifically in roles related to my field of Management Information Systems and UI/UX design. I appreciate any opportunities that come my way to further enrich my journey and passion in these fields.
